FAQ

1. Do I need perfex Crm to use it?
Yes. This is not a standalone module for PERFEX CRM, the module requires Perfex CRM application installed which can be purchased [here](#). Installation
2. How do I get support?
Kindly contact us on Codecanyon or use our support form at <https://www.boxvibe.com/support> Or send a mail to support@boxvibe.com Thanks.

TROUBLESHOOTING

- To check what version you are using visit [click here](#).

- If any css/js errors outputted on developers console or tables are not loading **make sure you cleared your browser cache.**
- If you are using your own themes/view files e.q my_home.php make sure to re-check them in case you are getting blank pages because may happen some function changes and an error occur in your view file. Try switching to the original files to check if everything will work.
- Getting 500 error - open [support ticket](#) and we will be happy to assist you.
